EAST DORSET, VT.

DEALERS IN

FLORENCE, FLORENTINE, EAST DORSET, FOREIGN ITALIAN
AND SOUTH DORSET WHITE

— ALSO —

TURNED AND SQUARE MONUMENTS, TABLETS, &c.,
FURNISHED TO ORDER.

We invite your attention to our designs for both TURNED and COTTAGE MONUMENTS, which will be furnished upon application. In neatness of design and quality of workmanship we challenge comparison, and while our own list of designs is very complete, we invite your orders for Monuments of your own designs, and will make prices for such on application. Our stock of Marble, both rough and finished, is exceptionally large and fine, and we can assure all who favor us with their orders of our best efforts to give them satisfaction, both with regard to promptness in filling orders and in securing for them the lowest possible rates of freight.

The FLORENTINE is a very dark, fine, even-colored Marble just being introduced to the Trade, and is susceptible of a very high polish.

OPHITE MARBLE CO.

QUARRIES NEAR PORT HENRY, ON LAKE CHAMPLAIN.

The Ophite Marble is unequalled by any for

ARCHITECTURAL

MONUMENTAL

AND x CEMETERY x WORK,

Being susceptible to a very high polish and easily worked, retaining both polish and color under exposure to weather. It is being largely adopted by leading Architects in all sections of the country, both in public and private buildings, for *WAINSCOAT, TILES, MANTELS, CAPS, SILLS, RISERS, STEPS, &c.* For MONUMENTAL WORK it takes the place of other Marbles, and of Granite, which it resembles in appearance.

DEALERS IN

GRANITE MONUMENTS, CEMETERY AND BUILDING WORK OF ALL DESCRIPTIONS.

We own our Quarries, which produce light, medium and dark Quincy Granite of the best quality, the stone being procured from a great depth and warranted free from all iron discoloration. Our stock will also be found to be remarkably free from knots. We own our Polishing Works, where polishing is done by the most improved methods. Every branch of the business, from quarrying the rough stock, to the final finishing into the finest quality of hammered, polished, or carved work is executed at Our Works. Special attention given to

GRANITE STATUARY AND CARVING and SATISFACTORY MODELS MADE before work is cut.

We also furnish Bronze Statuary Reliefs, etc. We keep constantly on hand different varieties of Granite, and execute work from any kind in the market.

Especial attention given to **Soldiers' Monuments and other large work**, both public and private. As specimens of our large work we would refer to the Soldiers' Monuments at Manchester, N. Y., Lawrence, Mass. and Holyoke, Mass., all of which are combinations of Granite and Bronze; West Roxbury, Mass., Soldiers' Monument, all Granite; Soldiers' Monuments at Springfield, Ohio; Morristown, N. J., and many other places.

For private monuments executed for various dealers, we refer to Longworth, Frank, Mitchell and many other large monuments in Spring Grove Cemetery, Cincinnati, Ohio.

Lovejoy Polished Monument, at Calvary Cemetery, near Brooklyn, N. Y., the LARGEST POLISHED JOB EVER MADE IN QUINCY, and multitudes more in all the principal states of the Union. We have a large number of designs which we are constantly adding to, and can furnish designs for all kinds of work. Our facilities are unsurpassed for executing any and all descriptions of Granite work whether large or small, and dealers may rest assured that any work intrusted to us will be done according to agreement. Our prices are as low as the lowest for the same quality of stock and work.

WORKS AND QUARRIES AT - - - BARRE, VERMONT.

We warrant our Granite free from Iron or any other imperfection, and challenge competition in Quality of Stock.

Report of PROF. JAS. HALL, State Geologist of New York.

TO THE COMMISSIONERS OF THE CAPITOL BUILDING, OF THE STATE OF NEW YORK, A. D. 1876.

"In the selection of building stone, color, texture and durability are of the first importance, and all ought to be combined to render the structure perfect. * * * The Granite of Barre, in Vermont is a whitish gray color, with the component parts very distinctly granular, and evenly mixed throughout, containing less mica than the Concord and Fitzwilliam Granites, and producing one of the finest building materials in the country; possessing a fine color, strength and durability.

Report of PROF. HITCHCOCK, late State Geologist of MASS., and SMITHSONIAN INSTITUTE, WASHINGTON, D. C.

"In Vermont the Granite is unusually fine and admirably fitted for architectural purposes. A better example cannot be referred to than that (from Barre) of which the State House at Mountpelier is built. We have never met with a finer kind of Granite for buildings and monuments in this or any other country."

MANUFACTURERS AND DEALERS IN

Granite Cemetery Work

SOUTH THOMASTON,

MAINE,

Owners and Workers of the M. T. Jameson Quarry. Rough, Hammered and Polished Granite of all Kinds. Ornamental Work a Specialty. All work will receive Careful Attention.
Steam Polishing Machinery.

Dishonest parties have been imposing upon the public by representing and furnishing an inferior quality of Granite to unsuspecting persons, as the M. T. JAMESON Co.'s Granite. There is no need of any one being deceived in this matter, as Monuments from this Granite can be obtained only from the M. T. JAMESON Co., and those who can show a certificate of delivery from said Company.

TESTIMONIALS.

STATE OF MAINE ASSAY OFFICE, Portland, Sept. 28, 1881.

M. T. JAMESON & Co.—*Gentlemen:* I have carefully examined and tested samples of the Granite from your quarries, with the following results: This Granite is the kind known as Syenite; it contains hornblende, but no mica, and also contains an excess of very pure rose-colored quartz, which renders the Granite firm and solid in texture, while at the same time it takes a brilliant polish. The black hornblende and rose-colored quartz blend their colors together, so that the result of polishing is a blueish tinge very remarkable for its beauty. Owing to its compactness this Granite is perfectly impermeable to water, consequently it will not be acted upon by the frosts of winter, and will not change by exposure to the elements. It is quite free from pyrites and compounds containing sulphur, and hence will never assume a rusty or stained appearance. In summing up, I can highly recommend this Granite for Ornamental and Architectural purposes, as well as for a regular building material, both on account of its durability and beautiful appearance.

I am, gentlemen, yours respectfully, F. L. BARTLETT, State Chemist.

BROOKLYN, N. Y., August 17, 1882.

MESSRS. M. T. JAMESON & Co., South Thomaston, Maine.—*Dear Sirs:* In answer to your inquiry respecting what I think of your Granite, I will say, that after 15 or 20 years' experience in Granite work, both for Monumental purposes and for public buildings, I do not hesitate to say that I consider your Granite equal to any that is furnished, either foreign or domestic,

Yours, very truly, JOHN N. WEBBER.

ADDRESS ALL ORDERS: M. T. JAMESON & CO., ROCKLAND, MAINE.

BLACK GRANITE

FOR
BUILDING AND MONUMENTAL WORK

Which takes and retains a Dark Polish, and very light hammered,
showing more Contrast between polished and hammered
parts, when wet, than Gray Granites show, dry.

SEND TO

FOR SAMPLES AND ESTIMATES OF THE ABOVE GRANITE.

Dealers in all Kinds of Monumental and Building Work.

POLISHING DONE BY STEAM POWER.

ROCKPORT GRANITE CO.

DEALERS IN

ROUGH, CUT AND POLISHED

FOR MONUMENTAL AND BUILDING PURPOSES.

→ ALSO ALL KINDS OF PAVING BLOCKS. ←

A pure Syenitic GRANITE. Owing to the absence of Pyrites and other Sulphides it does not stain by the action of the atmosphere. Its uniformly close texture and freedom from soft minerals, makes it practically impermeable by water, so that it will not crack or scale by the action of the frost.

It is Susceptible of a FINE AND DURABLE POLISH.

The crushing test shows a resistance of 19,200 lbs. to the square inch.

DARK BLUE QUINCY GRANITE.

Building, Monumental and Cemetery Work,

FURNISHED AT SHORT NOTICE AND AT LOWEST RATES.

It is well known that the deeper one goes down into a quarry, the better the quality and color of the Stone. Our quarry is one of the deepest, if not the deepest granite quarry in Quincy; therefore the granite taken from our quarry is of the very best quality obtainable, and is in color of the very darkest blue found. Every branch of the business is done at our own works, from the quarrying of the stone to the final finishing and polishing. We especially invite the attention of parties desiring monumental or cemetery work, feeling certain of giving satisfaction, both in quality of workmanship and material and in price. Orders for stock cut to size, and parts polished, we make a specialty. Steam Polishing in all its branches, done in the best manner. Send for Prices. All orders by mail promptly attended to.

BAILEY'S PORTABLE HOIST

Is now acknowledged by Marble dealers to be the best Hoist in the market for setting Monuments. We will not undertake on this page to make much illustration, but will simply show a few of its advantages. First, as seen on cuts, the

Power and Speed can be used to suit the load by using the DOUBLE OR SINGLE PURCHASE.

The Hoist can be suspended any height, and is controlled by a Brake.

All the Testimonials on this page are from the No. 1, except from Mr. M. C. Dow of the National Flour Mills, Cleveland, O. As we only show a few of our testimonials and price list on this page, send for Illustrated Catalogue to J. DUNN, 51 Rockwell Street, Cleveland, Ohio.

TESTIMONIALS.

CLEVELAND PLAIN DEALER, SEPT. 30, 1881.

The most wonderful feat of hoisting heavy materials into position ever accomplished in Cleveland has just been completed by Mr. James Dunn with the aid of the Bailey Hoisting Apparatus. Messrs. Morgan, Root & Co. have just erected in the rear of their building on Bank St. a large smoke stack composed of ten foot sections of twenty-four inch iron water pipe weighing 2,800 pounds each. This compact little machine lifted each section into position with perfect ease, requiring the assistance of only two men. This operation attracted much attention and elicited expressions of astonishment from observers, that so great a power could be concentrated in so small a machine. As a lifting machine the Bailey Elevator is the wonder of the age. Its compactness, convenience and power being astonishing features, while its utility has been fully demonstrated.

CLEVELAND, OHIO, December 5th, 1882.

Mr. James Dunn, Cleveland, Ohio:

Dear Sir: The Hoisting Apparatus, "Bailey's" No. 3 Portable Hoist, worked to our entire satisfaction. It lifted our flywheel and shaft, weighing over twenty tons, and did its work easily. For a machine of its character we do not think it has an equal.

Yours truly, M. C. DOW & CO.,

Proprietors of the National Flouring Mills, 265 Merwin St.

This wheel was lifted with a No. 3 Double Chain.

ELYRIA, O., MARCH 6th, 1883.

Mr. James Dunn, Cleveland, O.:

Dear Sir: The Bailey Hoist No. 2, which we ordered from you some time ago, will hoist anything in our line of monumental business with ease and safety. It is all that it is recommended to be, and more too. We could not afford to do without it.

Very truly yours, J. M. WOOLRIDGE & Co.

E. C. MAPS, GRANITE AND MARBLE WORKS, NO. 21 MAIN STREET,
YONKERS, N. Y., JUNE 28, 1883.

Mr. James Dunn, Cleveland, O.:

I have used the machine three times for setting monuments, and am well satisfied with it. Any one wanting one this way, you can depend on a recommendation from me.

Yours respectfully, E. C. MAPS.

OFFICE OF JOSEPH BEITER, DEALER IN MARBLE AND GRANITE MONUMENTS,

CANAL DOVER, MAY 31, 1883.

Dear Sir: I have just given the machine a trial, and think there is nothing its equal, and I can't see how any marble or granite dealer can afford to do without a machine if they cost double the amount you ask for them.

Yours respectfully, JOSEPH BEITER.

Mr. J. Dunn, Cleveland:

Dear Sir: We have to apologize for keeping quiet about your hoist. We are satisfied with it, and will remit in a few days. Will give you also a testimonial.

Yours respectfully, JOHN D. COUPER.

OFFICE OF NICHOLS & CO., 202 WASHINGTON BOULEVARD,

CHICAGO, ILL., JUNE 30, 1883.

Dear Sir: We have sold several of your hoists. They have given entire satisfaction; have failed to find a purchaser who was not well pleased with them, and say they are worth much more than you charge for them.

Yours truly, NICHOLS & CO.

URBANA MARBLE WORKS, D. M. BUNNELL, PROPRIETOR.

URBANA, OHIO, JANUARY 30TH, 1883.

Mr. James Dunn, Cleveland, O.:

Dear Sir: The Bailey Hoist, No. 1, I have used to my entire satisfaction. Can set monuments from twelve to twenty feet high, with the help of one man only, and with less trouble and expense than with anything in the derrick line. With one hand can raise a base five feet square and twenty inches thick. Can cheerfully recommend it.

Yours, truly, D. M. BUNNELL.

OFFICE OF THE ADRIAN CONSOLIDATED STEAM GRANITE WORKS.

ADRIAN, MICHIGAN, FEBRUARY 6TH, 1883.

James Dunn, Cleveland, O.:

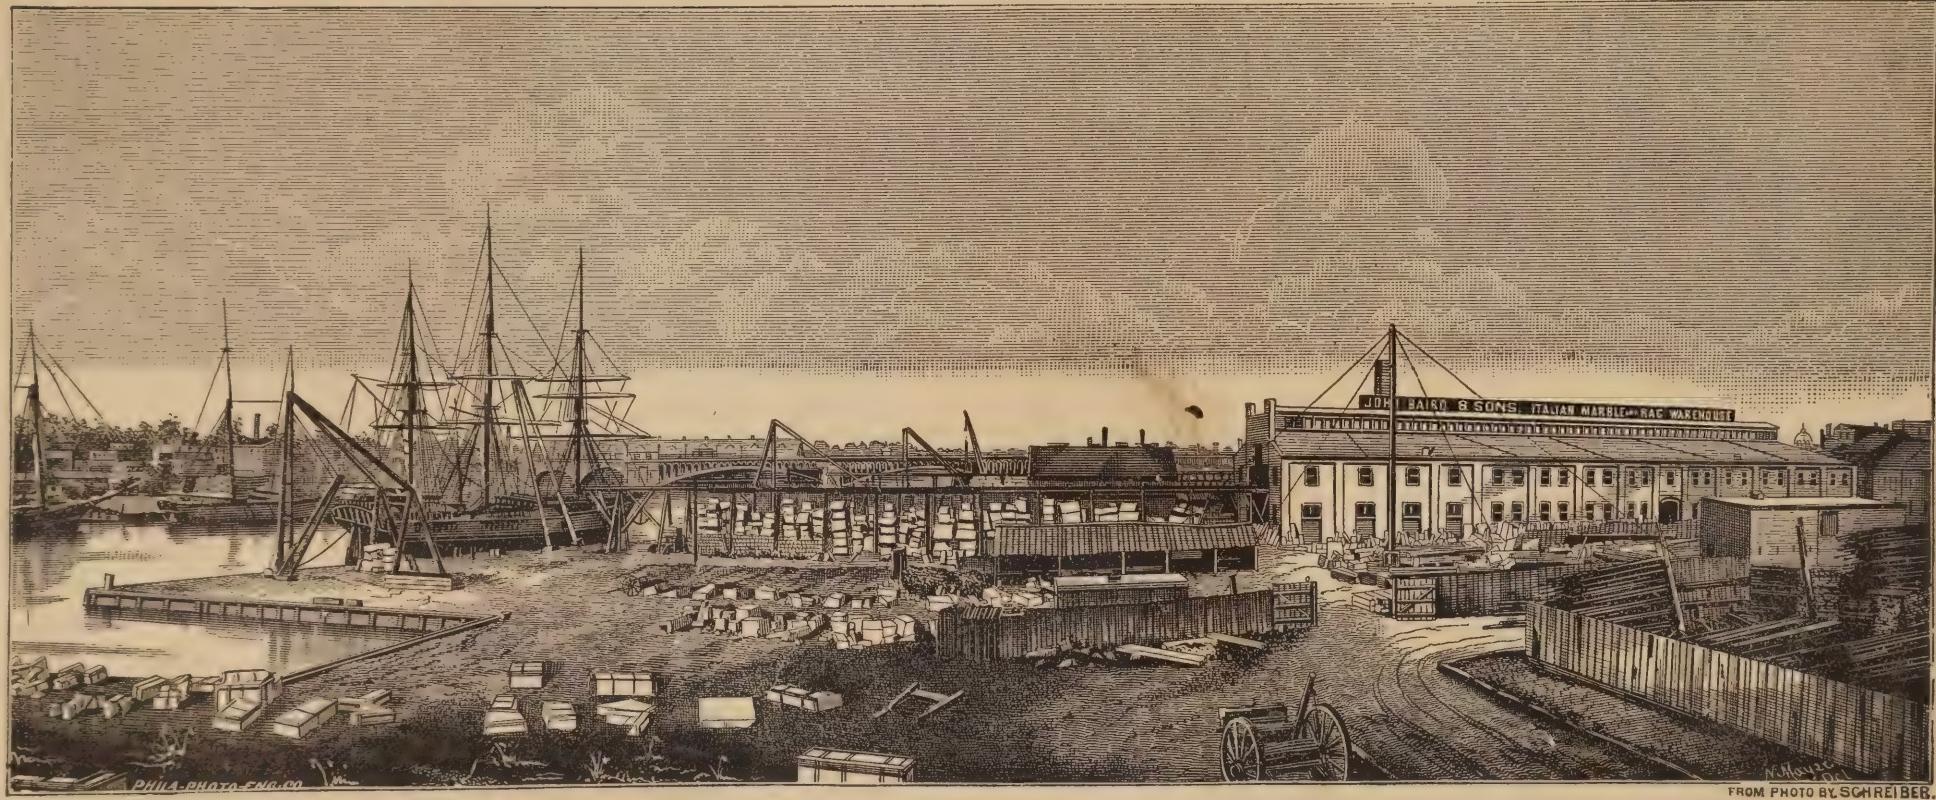

Dear Sir: The Bailey Hoist No. 2, which we got of you in May last has given entire satisfaction. We are using it in setting all our monumental work, and for hoisting heavy blocks of stone. One man with your hoist can raise larger blocks of stone and do it easier than four men with any other hoist. I cheerfully recommend them to any persons wishing a powerful and easy working hoist for raising heavy weights.

Respectfully yours, W. T. KING, Superintendent.

Having a Quarry of our own we can furnish Cut Dimension and POLISHED STOCK at the LOWEST PRICES POSSIBLE to the trade, from our SOUTH THOMASTON BLUE or

ST. GEORGE BLACK GRANITES.

Statuary Work and Carving a Specialty.

Orders Solicited and Estimates Furnished on Application.

W. O. CROSBY, Instructor in Geology and Mineralogy, says :

It is important to observe that it is rare to find a Granite so destitute as this of pyrite, and other sulphides, through the decomposition of which the color, polish, and even the strength of many Granites are destroyed. So far as I am able to judge from the specimens submitted to me, this Granite is remarkably free from cracks and pores, being practically impervious to water; so that we may safely predict that it will not be injuriously affected by cold weather. In short, this is a very compact, firm variety of Granite, possessing in its great durability, handsome color and brilliant and permanent polish just the qualities required for the best monumental work.

Address all orders to **GEORGE GREEN,**
